

Union Internationale Pour La Science, La Technique et Les Applications du Vide
 International Union for Vacuum Science, Technique and Applications
 Internationale Union für Vakuum Forschung, Technik und Anwendung

Dear colleagues,

We are pleased to invite you to participate in the 36th European Conference on Surface Science (**ECOSS 36**) which will be held **28 Aug - 1 Sep 2023** in **Lodz, Poland**, organized by the University of Lodz.

ECOSS is a well-established annual meeting directed jointly by the Surface Science Division of the International Union for Vacuum Science, Technique and Applications (IUVSTA) and the Surface and Interface Section of the European Physical Society (EPS).

The conference provides an excellent opportunity for scientists from Europe and from all over the world to meet and discuss the latest advances in the **physics and chemistry of surfaces**. Furthermore, it is a forum to discuss the progress of surface science in related innovation fields such as heterogeneous catalysis, organic molecular nano-architectures, two-dimensional materials and graphene, nanoelectronics, bio-nanoscience and functional and energy materials studied both using theoretical and experimental methods.

For more information and further updates, please visit the [conference website](#).

We invite you to join us in ECOSSE-36 in Lodz next year and discuss the latest surface science advances!

Pawel Kowalczyk,

Chairperson of ECOSSE-36
