

**Chemical and nanostructural aspects of the
characterization of ceria-based mixed oxides
and supported metal catalysts**

Discovering the fascinating world of ceria-based catalysts !

by Prof. Ginesa Blanco

Chemistry of Solids and Catalysis Group
Institute of Research on Electron Microscopy and Materials
University of Cadiz, Spain

July 20, 2017 - 2 pm CET (local time in Spain)

In order to register for the webinar please, send a message before July 19, 2017 to the following e-mail address

iuvstawebinar@iuvsta.org

stating your interest and including the following info:

FAMILY NAME

NAME

AFFILIATION

COUNTRY

In due time you will receive a mail with all the info on how to connect to the webinar
